However bidder offering pipe manufactured from Pakistan Steel Mills (PSM) HR coil are required to submit certified documentary evidence of HR coil rates. Adjustment in line-pipe rates (from the bid opening date till the currency of order) due to change in rate of HR coil manufactured by PSM is admissible to the extent of raw material cost without wastage. The bidders are required to submit certified documentary evidence of HR coil rates published by PSM, at the time of submission of bids. SSGC may verify the document / rates from PSM.
 - The variation clause however shall not be applicable on line-pipe quantities which were 8.2.3 delivered within 20 days of the announcement of the variation (both days inclusive) in price of HR coil by PSM.

- 8.2.4 The variation clause also shall not be applicable on the line pipe quantities delivered after the specified delivery schedule (total or monthly consignment wise)
- 8.2.5 No escalation is applicable on line pipe manufactured from imported HR coil.

9. Bid bond (earnest money):

Bid bond equivalent to two percent (2%) of the total offer value, in favor of Sui Southern Gas Company Ltd. shall accompany the bid if bid value is above Rs 500,000 in the form of pay order, demand draft, call deposit receipt or a bank guarantee (specimen of bank guarantee is attached at Annexure-A), issued by a scheduled bank in Pakistan. The bid bond shall remain valid for 120 days (150 days in case of Two Envelope bidding procedure) unless specified otherwise. The bid bond shall be returned/refunded to the unsuccessful bidders while the bid bond of the successful bidder shall be retained, till submission of Performance bond (if applicable). Bids without bid bond will not be considered. In case the order value is 500,000 the bid bond in lieu of performance bond will be retained till fulfillment of less than a obligations y supplier. However, in either case the bidder is responsible to arrange the extension the bid bond valicity per requirement. If bid bond submitted by the supplier is more than 2% of ordered value, it may be reply et with appropriate value. If order value is less than Rs. 500.000, the bid bond will be returned along with the order. Bid bonds of non-compliant bidders may be released during evaluation process. The bid bond may be forfeited if a bidder withdraws the bid duringvalidity period specified by the bidder or if successful bidde fail to:

- Accept purchase order
- Furnish performance guardine in accordance with clause 16 of Section 1,
- Supply material as per requirement and delivery schedule.

9.1 In the event of bid bond validity following, nort of the prescribed period of 120 or 150 days as the case may be either (i) due to extension in the old submission date or (ii) where so required by the procuring agency, then in such an event it shall be manuated or on the padder to extend the bid bond validity up to 120/150days within 30 days of the opening oxeranical proposal / bid, and / or where so required by the procuring agency.

.2 In the event of the bid security amount deposited / functioned by the bidder falls short by 10% of the requisite Bid security amount. The procuring agency keeping in view the nature of the procurement may consider and allow the bidder to deposit / furnish the balance 10% amount, provided the bidder does so within 15 days of the opening of the bid. Notwithstancing and all other terms & conditions have been fully complied with.

10. Opening of bids:

Bids will be opened in presence of bidders or their authorized agents at the address provided on "invitation to bids". The bidder's representatives who are present shall sign the bid opening sheet (a tendance sheet) to mark their attendance/witness. Commercial contents of bids will be announced/recorder to bid opening sheet.

11. Preliminary Examination of bids:

- 11.1 The Company will examine the bids to determine their completion, computational errors, provision of guarantees, authorized signature and other related matters.
- 11.2 Arithmetic errors will be rectified on the following basis. Discrepancy between unit price and the total price obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price will be corrected. Discrepancy between total bid amount and the sum of total prices, the total prices shall prevail and the total bid amount will be corrected.
- 11.3 Prior to a composed evaluation, the Company will determine the substantial responsiveness of each bid to the bidding documents. In Company's opinion a substantially responsive bid is the one which conforms to all the terms and conditions of the bidding documents without any material deviation.
 11.4 Bid determined as not substantially responsive will be rejected by the Company and cannot

subsequently be made responsive by the bidder through correction of the non-conformity.

Clarification of submitted bids: To assist in the examination, evaluation and comparison of bids, the Company may at its discretion inquire any clarification from bidder about their bid. All responses by bidders shall be provided in writing and no change in the price or substance of the bid shall be sought, offered or permitted.

13. Technical Literature & Samples:

. The Bidder(s) shall submit the following:

- 13.1 Samples (if applicable/required)
- 13.2 Original or legible copy of technical literature/performance characteristics
- 13.3 Test Certificates (if applicable/required)
- 13.4 Documentary evidence for legal import in case of imported material. (At the time of delivery when quoted on FOR basis)
- 13.5 In case of pipeline operation material bidders must also attach a "proof from supplier/ manufacturer, that goods offered have been used successfully on a high pressure natural gas pipeline elsewher inder tropical climatic conditions.

13.6 Specification Compliance Sheet:

Company requires a dause-by-clause commentary on the Specifications, demonstrating the materials responsiveness to mose specifications or a statement of deviations and exceptions to the provisions of the specifications, if to required/desired. For purposes of the commentary to be furnished pursuant to above, the bidder shall note that standards for workmanship, material and equipment and references to brand names or natalogue numbers, designated by the Company in the specifications are intended to be descriptive and and not restrictive. The bidder may substitute other authoritative standards, brand names and/or catalogue numbers in its bid provided which demonstrates to the Company's satisfaction that the substitutes are equivalent or superior to those designated in the specifications by the Company.

. Bid which does not possess above document, conficates etc., may be considered technically Noncompliant.

13.7 The offer shall be accompanied with all technical start bouments/certifications as required under the tender specifications. Evaluation shall be carried out to the basis of data/ documents/certifications submitted with the bid. No clarification, additional information may be sought / accepted after bid opening.

13.8 Deviation to technical specifications:

The bidder shall fill the "technical compliance sheet" and mention onered specifications along with reference to its technical brochure/literature (page/clause No.etc). State aert such as "Compliant" or "Confirmed" is not acceptable. Deviation to tender terms and technical specification is not acceptable. However, if bidder feels to mention minor deviation, the same shall be referred categorically on the "Bid Form" as well as on the technical compliance sheet stating reference of its technical data sheet/brochure. In case of insufficient information, data or documints, ite Company is not liable to seek clarification and the bid may be determined non-compliant or provided information.

14. Award/Evaluation Criteria:

14.1

61

In case of locally manufactured items e.g. service line material & meter components, manufactured by local vendors, the lowest bidder will be awarded maximum quantity as per his declared capacity and past performance in respect of delivery and quality. New vendors / manufacturers shall also be considered for placement of a purchase order up to a maximum of 10% of the tender quantity if their submitted sample has been tested and approved and provided they have quoted lowest price or agree to accept the order on lowest received price.

14.2 Generally for other items other than above, ordering shall be based on technical compliance and lowest quoted price. Supplies may be subject to pre shipment inspection and post qualification by a third party in case of foreign material. If required during the process of manufacturing and / or inspection. SSGCL representative may visit the manufacturer facility to witness the manufacturing / inspection process.

> Procurement a Dept.

14.3 Evaluation may be carried out both on item or on group of items/single or multiple package basis depending upon the nature of requirement exclusively at the discretion of the company to ensure economic procurement.

ZUPPE Y

14.4 Company reserve the right to settle the final terms of supply with the lowest evaluated and commercially responsive bidder: Any effort by the bidder (s) to influence the outcome of bid evaluation or placement of purchase order may result in disqualification of the bidder.

15. Loading of Bids:

Bids may be loaded with following if offer found to be deviated from specifications, delivery schedule, terms & conditions without stating the amount involved in such deviation by following method:

- The cost of compensation / loading amount for that item shall be derived from the bid itself. 15.1
- 15.2 If 15.1 is not possible, average of rates of other bidders, who have quoted for that item conforming chnical specification, shall form the basis for cost compensation/loading.
- 15.3 ompany will encourage participation by local bidders who will be given price preference. a ost factor shall be determined as per prevailing Government policy / SRO. However they at statis of local value addition on raw material imported by them and percentage of locally marginactured component with documentary evidence.

16. Performance Bond:

100 a. 3

16.3

16.4

16.5

- 16.1 In case purchase other blue is above Rs:500,000, the successful bidders shall submit performance The submitted within ten days from receipt of LOI or order along with bond guarantee wh integrity pact. Submission of the Bid shall be prima facie evidence that the Bidders have binding upon him. fulfilled this requirement and

3.

<u>Conflict between Drawings/Speci reations/SOR:</u> In case of any conflict between drawing is ecifications, SOW/TOR and SOR/BOQ, with regard to the quality of any item, the Contractor / Consultant sh Las drawings/details, the Contractor / Consulta whis quotation for the better quality. In case of any deficiency in the I seek clarification from the Company. Submission of Bids/rates on the basis of incomplete drawings/details shall be Q ntractor / Consultant's sole responsibility.

4. Additions, Deletions:

The Company reserves the right to make addition (15 %) and delete the quantity from the Work defined in SOW/TOR/SOR/BOQ as deemed necessary before or after the execution of the Contract. All such additions and deletions shall only be authorized in writing by the Company

5. Schedule of Requirement:

The quantities specified in the SOR/BOQ are estimated and are intended to serve only as a guide to the Bidders. Payments shall be made on the basis of actual Work quantum done of heasured. No claims or adjustments shall be entertained/allowed on account of increase or decrease in the Scope of Work which has not been duly authorized by the Company through the issue of change orders as stipulated in the relevant

6. Rate:

The Bidder shall quote all item rates and lump sum prices as shown in the " The Bidder shall quote all item rates and lump sum prices as shown in the "Solid BOO". Bidders shall fill in the rate / price for each item in the SOR/BOQ. In case of any discrepancy between item rate a different amount, the quoted item rate will prevail. The quantities given in the SOR/BOQ are estimated ones and are subject to ations. That is, there could be increase or decrease. Nevertheless, the item rates quoted by the Bidder shall main fixed and no escalation whatsoever shall be permissible. The rates / prices quoted by the Bidder shall be we e. The Bidder shall be required to furnish a complete rate analysis of any item in the SOR/BOQ as considered neces the Company. Ľ

7. **Escalation:**

It may be clearly understood that this tender does not contain a price variation clause and therefore, all unit prices quoted shall be firm, irrevocable fixed and valid until completion of the Contract and will not be subject to variation on any account.

8. Validity:

Bids shall remain valid for acceptance for a period of (120) days from the date of bid opening. If the last date falls on a holiday, the validity will be extended to the first Company working day thereafter.

9. **Bid Bond (Earnest Money):**

The Bidder is required to furnish Bid Bond strictly (if the bid increases to Rs. 500,000/-) in accordance with the prescribed format, in the form of a Pay Order, Demand Draft or Bank Guarantee issued only by a scheduled commercial bank operating in Karachi, for an amount 2% of the total bid value of tendered Work / Services quoted by the Bidder in favor of Sui Southern Gas Company Limited. No Bid shall be considered without a Bid Bond and no cash or cheque or a guarantee issued by an insurance company shall be accepted.

The Bid Bond shall remain valid for a period of 150 days from the date of Bid opening. Bid Bonds of the unsuccessful Bidders shall be returned as soon as practicable, The successful Bidder's Bid Bond sphall be retained by Company until execution of a Contract for the Work / Services defined in these documents and the submission of a Performance Bond prior to the execution of Contract.

In the event that the successful Bidder refuses or fails to provide (PBG) and Stamp papers for contract within fifteen (15) days of the issuance of a Letter of Intent, Company shall be at liberty to forfeit the Bid Bond.

In the event of the bid bond validity falling short of the prescribed period of 150 days as the case may be either (i) due to extension in the bid submission date or (ii) where so required by the procuring agency, than in such an event it shall be mandatory on the bidder to extend the bid bond validity up to 150 days within 30 days of the opening of technical proposal / bid, and / or where so required by the procuring agency.

In case when bidder submit alternate bids a separate bid bond for each bid is required otherwise bid will be liable for rejection. In case of Single Stage Two Envelope bidding system (bid bond will be enclosed with "Financial" bid, unless and until specified separately in Tender terms).

The bid bind may be forfeited if a bidder withdraws the bid during validity period specified by the bidder or if successful bidder fails to:

- Accept archase order/LOI,
- > Furnish period, ance guarantee in accordance with clause 10 of General Terms & Conditions,
- > Extend Services as per requirement and completion Period.

10. <u>Performance Bond:</u>

The Bidder shall furnish are reformance Bond strictly (if the bid increases to Rs. 500,000/-) in accordance with the prescribed formation the form of a bank guarantee issued by a scheduled commercial bank operating in Karachi for an another equivalent to _____ () percent of the Contract value. Failure to furnish the performance Bond before execution of the Contract will entitle the Company to consider the Bidder as having abandoned the Contract and the forfeit the Bid Bond. The Performance Bond shall remain valid till after three (03) month of completion of the work.

The Company's right to recover damage from the Bidder for breach of Contract shall not be limited to the value of the Performance Bond. In the event of the Bidder failing to execute a formal Contract or to submit the Performance Bond in the manner aforesand and in the period specified, the Company shall be entitled to appropriate the earnest money submitted by the Bidter with his tender without prejudice to its right to claim any further loss or damage which may result to to y reason of the aforesaid default of the Bidder as if Contract is actually executed for the purpose of such claims.

The Bidder shall extend the validity period of the Performance and for such period(s) as required for the Contract performance.

The performance bond of the successful bidder will be released after successful completion of work.

11. <u>Retention Money:</u>

The amount to be retained from payments shall be equal to the specified percent of certified value of Work which would be released after the maintenance period.

12. <u>Completion Period:</u>

Subject to any requirements as to completion of any portion of the Work before the completion of the whole of Work, the Work shall be completed within the specified completion period. The Work shall not be considered as completed until the Company has certified in writing that it has been completed. Should extra, altered or additional Work of any kind, or any other cause of delay, which in the opinion of the Company could not have been foreseen by the Contractor / Consultant requires extension in completion time, then on the written request of the Contractor / Consultant, the completion period as provided in the Contract shall be extended by the Company. All such extensions shall be allowed in writing by the Company's representative.

13. <u>Signing / Execution of Contract / Agreement:</u>

Formal signing / execution of Contract / Agreement shall be completed within fifteen (15) days of receipt of "Letter to Proceed". The Company shall prepare the Contract in accordance with the prescribed format (Contract Form, and Articles of Agreement) for the purpose and the successful Bidder shall be communicated the date and time by the Company for the execution of Contract.

The successful Bidder shall provide the stamp paper, of value at the rate of thirty five (35) paisa per every hundred Rupees or part thereof of the amount of the Contract, or at the prevailing rate as specified by the Government of Pakistan.

In case the agreement is executed for services i.e Janitorial, Canteen, Landscaping, Maintenance Contract etc.... will be for One year extendable for further Two terms of one year each unless specified in Special Term & conditions.

14. Award / Evaluation Criteria:

Company reserves the right to settle the final award of job to the technically compliant and lowest evaluated and commercially responsive bidder.

Evaluation may be carried out both on item or on group of items/single or multiple package basis depending upon the nature of requirement exclusively at the discretion of the company to ensure economic procurement.

15. **Commencement & Execution of Work:**

Notwithstanding any delay in the preparation / execution of the Contract the successful Bidder shall commence mobilization / preparations and under take the Work within (15) days after receipt of the Letter to Proceed.

The Contractor / Consultant shall prior to commencement of Work, obtain the written authority and instructions of the Company.

16. **Change** j rders:

y at any time, by a written notice to the Contractor / Consultant, make changes within the The Con general Scope of Work of the Contract. Upon notification by the Company of such change, the Contractor / Consultant shall submit to the

Company an estimate costs for the proposed change (hereinafter referred to as a change) within ten (10) calendar days of receptor protective of the change, and shall include an estimate of the impact (if any) of the change on the completion dat (s) under the Contract, as well as detailed schedule for the execution of the change, if applicable.

The Contractor / Consultant shall not perform changes in accordance with above, until the Company has authorized a Change Order in writing of the basis of the estimate provided by the Contractor / Consultant.

Changes mutually agreed upon as a ch hall constitute a part of the Work under this Contract, and the provisions and conditions of the Contract shall apply to said change.

Assignment: 17.

The Contractor / Consultant shall not assign hele or in part, its obligations to perform under the Contract except with the Company's prior written ca

18. **Termination of Contract:**

The Company may decide to terminate the Contract in one of the following situations:

(i) **Termination for Default:**

The Company may, without prejudice to any other ren y for breach of Contract, by written notice of default sent to the Contractor / Consultant, term hat the Contract in whole or in part.

- ted Works / Services within the If the Contractor / Consultant fails to complete the contractor (a) time period(s) specified in the Contract or any extension period granted by the Company.
- (b)
- If the Contractor / Consultant fails to perform any other obligmon (s) under the Contract. If the Company during the completion period of the Contract has reason to believe that (c) the Contractor / Consultant will not be able to fulfill the obligations under the Contract.

Prior to the exercising of any right by the Company to terminate the Contract, the Company shall issue notice to the Contractor / Consultant specifying the default(s) and the Contractor / Consultant shall submit an explanation within seven (07) days of receipt of such notice. If such explanation is not furnished within the stipulated time or if so furnished, is found to be unsatisfactory and / or the default(s) continues, the Contract may be terminated by the Company.

(ii) **Termination for Insolvency:**

The Company may at any time terminate the Contract by giving written notice to the Contractor / Consultant, without compensation to the Contractor / Consultant, if the Contractor / Consultant becomes bankrupt or otherwise insolvent. Notwithstanding the above such termination will not prejudice or affect any right of action or remedy which as accrued or will occur thereafter to the Company.

(iii) <u>Termination for Convenience:</u>

- a. The Company may by written notice sent to the Contractor / Consultant, terminate the Contract, in whole or in part, at any time for its convenience. The notice of termination shall specify that termination is for the company's convenience, the extent to which performance of work under the Contract is terminated and the date upon which such termination becomes effective.
- b. The Works that are complete and ready for Commissioning within thirty (30) days after the Contractor / Consultant's receipt of notice of termination shall be at the Contract prices and on the existing Contract terms. For the remaining Works, the Company can also opt to have any portion thereof completed and commissioned at the contract prices and on the other contract terms.

19. Liquidated Damages:

If the Contractor / Consultant fails to complete the Work or perform the Services specified in the Contract within the stipulated period / scheduled time specified in the Contract, the Company, without prejudice to any other remedies, shall deduct from the bills or any other due payments / guarantees, as liquidated damages, a sum equivalent to 0.1 % per day of the value the Contract, until actual completion of the Work or performance of the Services. However if delay of over 100 days takes place (i.e. equal to 10%), the Company reserves the right to terminate the Contract at the risk and cost of Contractor / Consultant. The liquidated damages shall also be applicable for the Works / Services terminated under Clause 16.

The paymer of liquidated damages shall not relieve the Contractor / Consultant from performing and fulfilling all its of pations under the Contract and nor shall the rights and entitlements of the Company be affected or reducer in any manner.

20. Force Majeure:

The Company shall not be liable to the Contractor consultant for any damage or loss caused by Force Majeure directly or indirectly.

Section - 2 (Services) Special Conditions of Tender Document Tender Enquiry No. SSGC/SC/

- Note: In case of any conflict between special conditions of Tender Document and any other terms & conditions, the Special Conditions of Tender Document will govern / prevail.
- 1- Contractor to submit the following within 15 days after issuance of Letter of Intent (LOI).
 - a. Performance Bank Guarantee
 - b. Stamp Papers
 - c. Insurance Policy
 - d. Any other Document as mentioned in the LOI
- 2- Formal contract will be made on Non-Judicial stamp paper of value @ Rs 0.35 per hundred rupees of contract value, as per prevailing rate by Government of Sindh & Balochistan. The stamp duty will be borne by the contractor and also submit the copy of challan of stamp paper. Further as per Government of Sindh Board of Review notification NO.CIS/SWB/BOR/R&T-17/2022-808 dated 08-06-2022 all judicial and non-judicial stamp paper of the denomination of rupee five hundred and above shall be exclusively on e-stamp.
- 3- All kinds of Gevernment Taxes, Duties and Levies against any item of the contract, shall entirely be the responsibility of the Contractor. Income Tax will be deducted as per applicable Law under the prevailing Government Rules. Kate of Income Tax deduction in relation to submission of Income Tax certificate from the Contractor should also be stipulated.
- 4- Bank Guarantee (Bid Bond Gua antee/Performance Bank Guarantee) will be made on Non-Judicial stamp paper at the prevailing rate as open nd by the respective Provinces. Further the bidder/contractor submitting the Bid Bond guarantee/Performance Bank guarantee being prepared by the State Bank's schedule banks should ensure that there should be prodeletion/insertion/alteration/modification of any terms in the Bid Bond/PBG guarantee format as given in the ender document or else bid will be liable for rejection.
- 5- If the letter to proceed (LTP)by user depth as pet issued within six months after issuance of letter of intent (LOI), both the parties are at liberty to terminate revoke the LOI without any claim of loss or damage to the other party.
- 6- The completion period of the said work shall start wine first from the issuance of Letter to Proceed, which in case of work exigencies could be issued prior to signing a formal agreement.
- 7- In case of services and works tenders: Bids determined to be substantially responsive will be checked by the Procuring Agency for an arithmetic error. Errors will be corrected by the Procuring Agency as follows;
 - a. Where there is a discrepancy between the amounts in figures and movers, the amount in words will govern; and
 - b. Where there is a discrepancy between the unit rate and the line item total r sulting from multiplying the unit rate by the quality, the unit rates as quoted will govern, unless in the opinion of the Procuring Agency there is an obviously gross misplacement of the decimal point in the unit rate, in unit rate the line item total as quoted will govern and the unit rate will be corrected.
- 8- The bidder shall fill in rates and prices for all items of the works / services described in the BOQ. Item against which no rate or price is entered by a bidder will not be paid for by the Procuring Agency when executed and shall be deemed covered by rates and prices for other items in the BOQ. Any Bidder who change / amend the BOQ or Price Schedule (description, Quantity, UOM etc.) will render the bid as conditional bid and will be liable for rejection.
- 9- <u>Method For Submission of Bid Bond (Under Single Stage Two Envelope Bidding Procedure):</u> In case of Single Stage Two Envelope Tenders the fixed bid bond as per clause#09 of General Terms & Conditions to be placed in the Technical Proposal. However, if the bid bond is placed in the financial proposal will also be considered. Without submission of bid bond (either in Technical proposal or financial proposal) the bid will be rejected.
- 10- Bid bond submission (2%) of the bid amount as mentioned in the clause 9 of General Terms & Conditions, to be treated as null & void, however other contents of clause 9 will remain unchanged. The submission of fixed amount of Bid security is appearing in the Schedule of Requirement/Bid Form.

11 Vds Procurement Dept.

a) All the bidders are advised to furnish fixed bid security amount appearing in Schedule of Requirement/Bid

Form, failing which their bid will be rejected.

- b) The submission of fixed amount of bid security is also mandatory for all the bids valuing Rs. 500,000/- or less.
- c) The word lowest bidder or the lowest evaluated bid has been substituted to read as most advantageous bid.
- 11- Bid shall remain valid for acceptance for period of (120) days from the date of public opening of the bids & Bid Bond validity is for 150 days.
- 12- In case the local agent requires to offer bid form more than one Principal / Manufacturer, it is mandatory to purchase separate tender document for each Principal / Manufacturer, failing which the bid submitted with the original tender document will only be accepted and the bid with photocopy of tender document will be rejected.
- 13- Blacklisting Mechanism of Suppliers and Contractors and their Local Agent:

Black listing mechanism is attached separately in the tender documents which will become an integral part of Tender Documents and now be followed / enforced in true letter & sprit and supersede the Black listing terms as meroped in the General Terms & Conditions.

- 14- Original courses sin of token which is issued with tender document to be attached on the TOP of envelope at the time of bid s tom sion"
- 15- The Successful Contra cr(s) / Supplier(s) / Consultant(s) shall submit a copy of Professional Tax Certificate with their Invoices / sills failing which the payment will not be released.
- 16- Contracts of Contractor

- "Original counter slip of to which is issued with original tender document to be attached on the TOP of envelope at 10. the time of bid submission.

Cancellation of Purchase Or 11.

Aterial within the specified delivery schedule as given in Purchase order (P.O.) In case the supplier fails to deliver, a and maximum upto 120 days after the expire of the specified delivery schedule as per Purchase Order, the Purchase Order will be treated automatically as cancelled, a pilier's sole risk & cost. However, for the sake of clarity liquidated damages will be treated automatically as cancelled as a lier's sole risk & cost. However, for the sake of clarity liquidated damages (Clause-27 of General Terms Conditions) and Laut by Supplir (Clause-28 of General Terms Conditions) will be treated as given in the General Terms & Conditions of the te der documents.

Correct Postal Address

Bidders are essentially required to provide coorect and latest postal, e-mail & web addresses, phone/cell/fax numbers at the time of purchase of tender documents for effective and timely communication, failing which in event of any non-delivery of information / communication the procuring agains / ill be considered as non-responsive.

13 In case the local agent requires to offer bid from more than the campipal / Manufacturer, it is mandatory to purchase separate tender document for each principal / Manufacturer, fain, which the bid submitted with the original tender document will only be accepted and the bid with photocopy of tends document will be rejected.

Blacklisting Mechanism of Suppliers and Contractors and their Local

Black listing mechanism is attached separately in the tender documents which will become an integral part of Tender Documents and now be followed / enforced in true letter & sprit and super lack listing terms as mentioned in the General Terms & Conditions.

x Certificate with their The Successful Contractor(s) / Supplier(s) / Consultant(s) shall submit a copy of Profession 15. Invoices / Bills failing which the payment will not be released.

Authentications of Performa Invoice / Authority Letter and other documents by the Pinci al Manufacturer: 16. The Authentication of Authority Letter and Performa Invoice will be obtained from the Prince mufacturer as and . when required. If the authentication not received within the stipulated time frame the bid will be liaste for rejection and the Bid Bond / Earnest Money will be encashed.

- Bid Bond & PBG (Performance Bank Guarantee) for Proprietary Tenders
- In case of proprietary Tenders, the Bid Bond & Performance Bank Guarantee (PBG) are not required / Applicable.

Any Bidder who change / amend the BOQ / Price Schedule (description / Bid Form, Quantity, UOM etc.) will render 18. the bid as conditional bid and will be liable for rejection.

Delivery Schedule will commence after the opening of Letter of Credit (LC). In case the bidder does not submit the 19. performance bond as specified, the delivery time of goods shall be deemed to have commenced 10 days (15 days in case of import) from the issuance of letter of intent / prchase order. The proceeds of the performance bond shall be payable to the Company as compensation for any loss resulting from the supplier's failure to complete its work under the purchase order / contract.

In the event of release of Performance Bank Gurante (PBG) after its encashment, the amount of the PBG to be released will be converted in Pak Rupees at the exchange rate prevailing at the time of encashment. The amount so Page 3 of 5

Rev-FP-29 19 Dec 2023 converted will be released in Pak Rupee (PKR) to the foreign bidder or to their local agent duly authorized by the foreign principal.

SSGC will not pay invoices if they are turned in after 6 months of work completion / material delivered.

As per FBR Regulations Ref# C.No.4 (24) IT- Budget/2021-142150-R, Dated: 23rd September, 2021 to make the payment online. Therefore, all the local manufacturers are required to provide their only one Bank Account number (IBAN number) on the 'FORM-X' attached duly signed & stamped as one time information, which shall be firm (not changeable) for all the future payment transactions.

It is mandatory for the bidders to follow all the terms and conditions given in the tender documents without any addition / deletion / amendment and submit the bid accordingly. Therefore, in this context, the bidders are requested not to give their own terms and conditions as it tantamount towards the conditional bid. Otherwise their terms and conditions will not be considered and the Purchase Order / Contract will be awarded based on only as per SSGC tender terms and conditions.

Page 1 of 10 Dated : 12th October 2020 Revision-1 : Dt: 3 Sept 2024

REASONS FOR BLACKLISTING

- 4.1 The following shall comprise the broad multilateral guidelines for blacklisting:
 - 4.1. I "Corrupt Practice" means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of a public official in the procurement process or in contract execution;
 - 4.1.2 "Fraudulent Practice" means a misrepresentation or omission of facts in order to influence a procurement process or the execution of a contract;
 - 4.1.3 "Collusive Practice" means a scheme or arrangement between two or more bidders, with or without the knowledge of the Purchaser, designed to establish bid price at artificial, non-competitive levels, and
 - 4.1.4 "Coercive Practice" means harming or threatening to harm. directly or indirectly, Person(s) / Firm(s) or their property to influence their participation in the procurement process or affect the execution of a contract.
 - 4.2 In addition to above, blacklisting of firms/individuals may be resorted to when the charges are of serious nature, which include but are not limited to the following:

Competitive Bidding Stage

During the competitive bidding stage, the Procuring Agency shall impose on bidders or prospective bidders the penalty of Suspension from participating in the public bidding process, without prejudice to the imposition of additional administrative sanctions as the internal rules of the agency may provide and/or further criminal prosecution, as provided by applicable raws for violations committed which include but are not limited to the following:

- i. Submission of eligibility requirements containing false information or falsified documents.
- ii. Submission of bids that contain false information or falsified documents, or the concealment of such information in the bids in order to influence the outcome of eligibility screening or any other stage of the public bidding.
- iii. Submission of unauthorized or rate documents for pre-qualification/ tendering i.e. without specific authorization from the principals/ manufacturers etc.
- iv. Failure of the firm to provide aut entity Warranty Undertaking and Performa Invoice of the manufacturers / Principe / Trading house.
- v. Failure of the firm to submit specific authory letter of the Original Equipment Manufacturer (OEM) for participation in a particular tender;
- vi. Unauthorized use of one's name, or using the dame of the name of another for purpose of public bidding.
- vii. Deviations from specifications and terms & c. d ions of the purchase order/contract.
- viii. Withdrawal of a bid, or refusal to accept an award or refusal concertor the job or enter into contract with the government without justifiable cause, after he had been adjudged as having submitted the Lowest Calculated Responsive Bid or Highest Rated Responsive Bid.
- ix. Refusal or failure to post the required performance security within the prescribed time.
- x. Refusal to clarify or validate in writing its Bid during post qualification within a period of seven (7) working days, or as may be specifically prescribed, from receipt of the request for clarification.

Page 2 of 10 Dated : 12th October 2020 Revision-1 ; Dt: 3 Sept 2024

- xi. Any documented unsolicited attempt by a bidder to unduly influence the outcome of the bidding in his favor.
- xii. Any attempt to give illegal gratification to any representative of the purchaser to influence the process of procurement.
- In addition to the penalty of suspension, the bid security posted by the concerned bidder or prospective bidder could also be forfeited / encashed.

4.2.2 Purchase Order / Contract Implementation Stage

4

£

During the Purchase Order / Contract implementation stage, the procuring entity shall impose on contractors after the termination of the contract the penalty of suspension from participating in the public bidding process, without prejudice to the imposition of additional administrative sanctions as the internal rules of the agency may provide and/or further criminal prosecution, as provided by applicable laws, for violations committed which include but are not limited to the following:

- i. Failure of the contractor, due solely to his fault or negligence, to mobilize and start work or performance within the specified period in the Letter to Proceed.
- ii. Failure by the contractor to fully and faithfully comply with its contractual obligations without valid cause, or failure by the contractor to comply with any written lawful instruction of the Procuring Agency or its representative(s) pursuant to the instruction of the contract. For the procurement of infrastructure projects or consistancy contracts, lawful instructions include but are not limited to the following:
 - a. Employment of competent technical Person(s) / Firm(s)nel, competent engineers and/or you supervisors;

- 1999, or contractors involved with any other criminal proceedings conducted by any investigation agency where default has been proved specifically in relation to supplies made to or contracts concluded with SSGC.
- ix. Involved in litigation or needless petitioning of influence or obstruct the procurement process either on his own behalf or at the behest of are other vested interest;
- x. A firm may be disqualified for a period extend ole to two years in case a decision by a court is awarded against the said firm after litigation, or where the firm is involved in litigation at least three times during two financial years, or where a two has on account of litigation caused substantial financial losses to SSGC;
- thes / Divisions / Departments xi. Blacklisted by other Federal and Provincial Government and organizations / autonomous bodies subordinate thereto; ar it
- ation of the concerned Blacklisting in case of Joint Venture firms will also result in en xii. Joint Ventures Partners.
- SYSTEM OF PENALTIES 5.

For the purpose of uniformity, following system of penalties shall be adopted for procurement of goods, works and services:

5.1 Blacklisted and henceforth cross debarred for participation in any public procurement or disposal proceedings for the period of not more than ten years, if corrupt and fraudulent

> Page 4 of 10 Dated : 12th October 2020 Revision-1 : Dt; 3 Sept 2024

practice as defined in these rules is established against the bidder or the bidders in pursuance of blacklisting proceedings;

- 5.2 blacklisted and henceforth cross debarred for participation in respective category of public procurement or disposal proceedings for a period of not more than three years, if the bidder fails to perform his contractual obligations during the execution of contract or breaches the contract due to his capacity and capability to perform or otherwise. However, procuring agency shall initiate such blacklisting or debarment proceedings after exhausting the forum of arbitration, provided that such provision exists in the conditions of contract, and if such failure or breach is covered in the respective dispute settlement clauses of the contract, and
- 5.3 blacklisted and henceforth cross debarred for participation in respective category of public procurement or disposal proceedings for a period of not more than six months, if the bidder fails to abide with a bid securing declaration, however without being indulged in any corrupt and fraudulent practice.

6. SUSPENSION AND BLACKLISTING PROCEDURE

- be supplier or contractor who is to be blacklisted for a specified period is given adequate op ortunity of being heard.
- 2. The surplier or contractor who is to be blacklisted for a specified period is called for meeting by toviding adequate time, so as to given him adequate opportunity of being heard before taking any action.
- 3. In case the supplier or contractor does not attend the meeting on the given date and time a final notice is served to any / her to attend the meeting on the revised date and time. Despite the final notice, if the supplier or contractor does not attend the meeting as per schedule, automatically be considered at fault. Action will be taken as per below clauses 5 to 9.
- 4. A three-member committee will form contprising of User, Procurement and HSE&QA departments to address the issues in the newing with the supplier or contractor. Members of committee may not below of grade IV.
- 5. In case the supplier or contractor is found at defaul based on the fact of the case as well as the tender terms and conditions, and do not justify the grounds of his default as per the tender terms and conditions, the approval is tragger from the management for their temporary or permeant blacklisting along with encase nervof bid bond or PBG as the case may be.
- 6. The decision of the management is communicated to the output supplier or contractor through a formal letter.
- 7. A copy of the letter of the defaulted supplier / contractor alongwith covering letter with pertinent documents is / also forwarded to the Authority (PPRA) for uploading on PPRA website.
- 8. The blacklisting information of the supplier / contractor is uploaded on the websites.

Page 5 of 10 Dated : 12th October 2020 Révision-1 : Dt: 3 Sept 2024

- 9. Any bidder not satisfied with the decision of the procuring agency, may lodge an appeal in the relevant court of jurisdiction.
- 10. After coming into force the procurement contracts, the dispute between the parties to the contract shall be settled by arbitration.

7. STATUS OF BLACKLISTED FIRM/INDIVIDUAL

Blacklisting of a firm/individual will not affect other ongoing contracts/works/supply orders. However, such blacklisted firm shall stand barred from all future tender processes/participation and Standing Security, if any, could be confiscated until recovery of financial damages ascertained by the authority while issuing Blacklisting Order.

8. DELISTING

A temporary blacklisted firm / individual shall be automatically restored after the period for the penalty has elepsed, unless the procuring agency wants to maintain the blacklisted status of firm / individual autor justifiable reasons with the prior approval of Appellate Authority. In the latter case, the temporary blacklisted firm / individual shall be restored.

9. AMENDMENTS

- 9.1 In the implementation of Blacklisting Mechanism, the modifications may be introduced thereto through the aperament of its specific provisions as the need arises.
- 9.2 Any amendment to this Blocklising Mechanism shall be applicable to tenders advertised for bid after the effectivity of the said amendment.

10. EFFECTIVITY

The Blacklisting Mechanism or any amendments deep of shall take effect immediately and from the date of its issuance. All future tender documants must be governed by these instructions. However, these cannot override the provisions of Public requirement Rules, 2004.

Page 6 of 10 Dated : 12th October 2020 Revision-1 : Dt: 3 Sept 2024

- iii Commission of embezzlement, criminal breach of trust, theft, cheating, forgery, bribery, falsification or destruction of records, receiving stolen property, false use of trademark, securing fraudulent registration, giving false evidence, furnishing of false information of serious nature.
- iv Submission of false bid security or infringement of documents to get undue monetary or any other benefit.
- v Breach of confidentiality of evaluation process based on illegal access or in any way to get undue benefit or to provide benefit or to frustrate the bidding/evaluation process. This will also include attempts to sabotage the bidding process directly or indirectly.

2. POST- AWARD STAGE:

The following shall be considered, interalia, the events / reasons for initiating proceedings under this Mechanism at the Post-Award Stage:-

- i. Eccaordinary delay in signing or refusal to accept the Notification of Award and/or the concernment without any cogent reason.
- ii. Misconduct he., failure to proceed with the signed contract, withdrawal of commitments, quoting an unreceptually and unfairly low financial offer and subsequently withdrawing such an offer nustrating the evaluation/bidding process and not responding to written communication if a response time.
- iii. Causes mentioned in Spo-Clauses i, ii and iii above.
- iv. Submission of fake / frivolous / mutilated Performance Guarantee or Advance Payment Guarantee etc.
- v. Non-satisfactory performance during the recution of the contract / purchase order.
- vi. Non-performance or Breach of provisions to cleuses of the contract agreements/tender, terms.
- vii. Notwithstanding the warranty/defect liability period, any defect in a product, equipment, plant, facility or services rendered that may subsequency surface during field operations within 5 years of its commissioning.
- vili. Failure to honour obligations within warranty period or defect flability period as defined in the contract.

3. OTHER CAUSES :

- i. The Person(s) / Firm(s) is blacklisted by any Government department in Pakistan, or it is established that the firm is involved in any kind of corruption or corrupt practices anywhere in the world.
- ii. Violations of provisions / instructions set down in the Bidding Documents.

Page 7 of 10 Dated : 12th October 2020 Revision-1 : Dt: 3 Sept 2024

iii. Any attempt / activity to malign or bring SSGC into disrepute and harm its interest(s).

- iv. Person(s) / Firm(s)(s) blacklisted by International Financial Institutions (donor agencies) will be liable to be blacklisted after receipt of confirmation from the donor agencies without any further proceeding.
- v. Any other cause deemed just and appropriate by CPPA in the given circumstances.
- Note: (1) If above mentioned causes occur either on part of the principal bidder or the local agent, both shall be considered for blacklisting / debarment.
 - (2) The authorization of the foreign bidder to local agent shall contain his complete particulars including the name of the company, name of the owner, National Tax number (NTN), CNIC (Computerized National Identity Card) No. etc. In case, the said information is found to be missing, even after calling for the same within a reasonable time, the authority letter shall not be accepted.
 - (3) The Bidding Documents shall be issued against original authority letter or in case of scanned copy, in small of the foreign bidder shall be enclosed. However, at the time of bidding, the original authority letter shall be attached with the bid. In the absence of the same, the bid shall be rejected
 - 4. FORMULATION of SaCC's Rights Protection Committee: A permanent Committee namely "SSGC's Rights Protection Committee (RPC or Committee)" shall examine the justification of the reasons given by the Project Authority prior to blacklisting. Member of RPC must be one grade up from the members of P.
 - 5. PROCEDURE FOR BLACKL STAND

Upon receipt of or obtaining information ind/or knowledge that any Person(s) / Firm(s)(s) is involved in practices mentioned in hereinalow, under the heading of Pre-Award Stage; Post-Award Stage and Other Causes, the concentral roject Authority / formation shall promptly formulate its recommendations and submit through the Managing Director, SSGC to SSGC's RPC / Committee along with its findings, details of harges and documentary evidences to initiate proceedings under this Mechanism.

- 6. INITIATION OF AN ACTION
 - (i) Within a period of 15 days after receiving the recommendations of Blacklisting / Debarment from the concerned Project Authority, the Convenerof the Committee shall issue a Show Cause Notice ("Notice") thereby informing the Persone) (Firm(s) about the alleged charges and shall provide an opportunity to the defend said charges within a time period of 15 (fifteen) days.
 - (ii) The Person(s) / Firm(s)(s) shall be accorded adequate opportunity of heating in order to defend the charges within the given timelines.
 - (iii) The Notice to the Person(s) / Firm(s) shall be sent at the mailing/postal address as provided under the Contract or any other address provided by way of subsequent written communication by the Person(s) / Firm(s) The non-receipt of the Notice due to incorrect / change in mailing address without any written communication shall not be attributable to

Page 8 of 10 Dated : 12th October 2020 Revision-1 : Dt: 3 Sept 2024

SSGC. In case of non-receipt of any reply from the accused Person(s) / Firm(s) within the formulated time, but not less than the time given in (i) above, the Committee shall have the right to proceed on Ex-parte basis.

7. DECISION

The committee shall hold an independent inquiry/investigation as the case may be, and, which may include site visits and interviews with the parties concerned. The Committee shall complete the entire inquiry/investigation, preferably within a period of 30 days after receipt of response from the Person(s) / Firm(s) against whom proceedings under this Mechanism has been initiated and shall present the report to the Managing Director, SSGC. If required, the Committee may report the case to an appropriate law enforcement agency depending upon the nature of the case for detailed investigations with the prior approval of Managing Director, SSGC. iii. The Person(s) / Firm(s) against whom proceedings have been initiated under this Mechanism shall not proceed for arbitration/litigation during the proceedings for blacklisting.

8. COMMUNICATION OF DECISION

After reconceredation for temporary & permanent blacklisting by "SSGC's Rights Protection Committee (RPL)", the Person(s) / Firm(s) concerned shall be informed within 10 days of such decision. The decision of the Committee will be notified on SSGC 's and PPRA's websites and shall also be conveyed a Pakistan Engineering Council.

The temporary Blacklitting on the grounds and reasons specified herein above shall be for a reasonable specified period of the and as a general rule of prudence, the period may not exceed three years, except in cases where debarment/blacklisting has been done by any other government department or an International Financial Institution (Donor Agency). In case the Person(s) / Firm(s) has been blacklisted by the government department or the International Financial

Institution (donor agency), the period of temporary blacklisting/debarment shall be for a maximum period of 3 years or the time period for which the concerned government department/International Financial Institution (or a Agency) debarred the contractor (whichever is higher). However the permanent black ising cannot be revived.

Action after the Person(s) / Firm(s) are placed on Blacklisting is

- i. The decision of blacklisting will be immediately circulated to the concerned as mentioned herein above under the heading Communication of Decision.
- ii. In case of a contract already awarded to a Person(s) / Firm(s) which has been blacklisted and termination is either not possible or not feasible, the concerned Project Authority may proceed in this case to complete the contract with the approval of Competent Authority. (iii) The blacklisted Person(s) / Firm(s) shall stand disqualified from bidding from the date of decision against them. Any pending bids shall also stand rejected. If a contract has already been awarded to Person(s) / Firm(s), it shall be voidable at the option of SSGC. (iv) A separate register or data base will be maintained for blacklisted firms indicating reasons and period.

i) <u>Engine.</u>

| Design . | |
|----------|--|
|----------|--|

Natural gas powered engine, four cycle water cooled.

Bidders have to provide the following technical information along Engine with manufacturer documentary evidences. a) Engine HP at Standard condition b) Engine HP available at Site condition c) Engine Parasitic Load (HP) d) Engine net available HP at site condition. e) Engine top end and major overhaul duration Based on site condition. Engine fuel consumption on full load at ISO and f) Site condition. g) Engine lube oil change interval and lube oil Consumption at site condition. h) Spares cost labor charges for Engine Top end and major overhaul. Efficiency: he Electrical efficiency shall be of (30%) and Engine Should 0000 hours duration for Engine Top end overhaul and Duration for major overhaul. Warranty: Warranty erid of 12 months after commissioning or 5000 running hours wh chever comes earlier. Performance nd low maintenance cost engine shall be Low fuel consumption preferred. Natural / Turbo charged & af ch cooled (inter-cooled) Aspiration Electronic type, The Governor movid be sensitive to ensure that Governor frequency of the generator output is mintained at 50 Hz, + / - 0.5 Hz stable, engine speed shall be attained with in 60 Seconds after the Engine has been started. Stable Engine apped shall be restored with in 5 second of any sudden change in oar, from no load to full load and during the changing of toad or sun in period, the speed shall not vary more than 5% of the rated speed 1500 RPM RPM Air filter shall be dry replaceable type. Pre- cleaner Intake Air Filter shall also be provided to remove air borne water Contaminants. A water cooled exhaust manifold. The vendor shall furnish Exhaust System stainless steel flexible connector for discharge of exhaust gas. The engine muffler shall be equipped with spark arrester and suitable to attenuate the sound of the engine exhaust to level acceptable for residential area, along with mounting accessories.

Cooling System

Ignition

Carburetio

Lubrication System

Lube Oil System

Starting System

Fuel Gas

A radiator Remote / Engine driven fan shall be provided to cool the engine while operating at full load with 10% extra cooling capacity at an ambient temperature of 55°C.

The cooling water load shall include inter-cooler, exhaust manifold & lube oil cooling if required.

The radiator shall be complete with sight glass, drain connection and drain valve etc.

The radiator shall be skid mounted /Table type closed circuit.

: Ignition voltage to the spark plugs shall be provided from contact - less Altronic Ignition System installed and supplied as part of and driven off the engine. Ignition system shall be adequately protected against failure due to moisture condensation and shall be equipped with suppressors to ensure no interference to radio equipment.

The engine shall have an adjustable carburetor for air / fuel ratio adjustment.

The lubrication system shall be through gear type positive pressure pump. Lubrication through automatic **Pre** lube pump. Shoul be available before engine starting.

The eight chall be equipped with full flow replaceable cartridge type oil fate.

The engine shall be equipped with an electric starting system, with batteries, connector leads, battery racks & charger. The battery shall be rated at 24% 1 C and for a minimum 10 cranks 10 seconds each.

An automatic fully regulting, constant voltage, current limiting battery charger to maintain fracturate on battery when main supply is available. Engine driven alternator battery charging when set is running. The starter shall be arranged to automatically disconnect when engine starts.

The Fuel shall be of Natural Gas and 10 to 20 Psi gas pressure will be available at Site, manufacturer shall where provide further regulation on Engine. Gas train contains past regulator, gas solenoid, gas valve, <u>S.S flexible pipe</u> and pressure gauge.

The natural gas engine shall meet design/rated load when operating on natural gas with a gross heating value of 800 to 900 BTU/SCF.

Manufacture Shall have to provide.

- i) Minimum gas pressure requirement of Engine
- ii) Maximum permissible limit of sulfur content in fuel gas.
- iii) Minimum methane level for Engine fuel.

Generator /Engine protection & LED

1) Faults for which automatic shutdown & lock out shall take place with indication shall include the following:

- a) High coolant temperature.
- b) Low lube oil pressure.
- c) Engine over crank.
- d) Engine over speed
- e) Engine fail to start
- f) Alternator voltage low.
- g) Alternator voltage high.
- h) Under frequency
- i) Over frequency
- i) Emergency stop
- k) Power Loss
- 1) Fail to parallel
- m)Reverse power
- Circuit Breaker Over current Trip
 - Or which automatic LED indication shall take place 2) shall include the following: with ind

DURDOS

Service

- Lube oil ter perature high a)
- b) High Oil Le
- c) Low Oil Lev
- d) Low Oil Pressure
- e) High Water Temperature f) Pre lube running
- g) Automatic Running
- h) Manual Running
- i) Low fuel Pressure
- j) Low water Level
- k) Low Battery Voltage

2N PROCUREMEN DEPL

(iii) Alternator & Engine Control Equipment

The Engine and alternator control equipment panel shall be of free standing and suitable for parallel operation with other Generators and include the following:

- 3- phase output, motor operated / ACB of suitable rating comprising of a) minimum:
 - Over current protection.
 - Short circuit protection
 - Under voltage protection
 - Over load protection
 - Neutral fault trip protection
 - Earth / ground fault trip protection
- eter (0-600 volts)
- c) Ammeters of suitable scale capacity
- d) Volt /Amp p
- e) Power factor
- f)
- <u>g</u>)
- h) Reverse Power relay
- i)
- i) KW Meter
- k) KWH meter
- 1) Hour counter
- m) Lube oil temperature Gauge
- n). Battery charger failure warning lamp
- o) Lube oil pressure gauge
- p) Coolant temperature gauge
- Fine speed potentiometer **q**)
- Winding Temperature gauge r)
- Cylinder head Temperature Gauge s)
- Speed Meter t)

Mode of Operation

Existing caterpillar Gen sets both of 255KVA & required 310-340 KW Genset shall be connected in a single Bus bar and shall operate on requirement of field load and the control panels shall be capable to parallel operation of three Gensets.

iv) General Requirement

- a) Bidders should be of OEM authorized dealer / Sole agent and should have posses the following facility in Pakistan.
 - i) After Sales Service facility and availability of spares.
 - ii) Workshop facility with experienced engineering staff for necessary repair & Engine overhauling facility on manufacturer recommended standard.
- b) Bidder have to provide the list of the offered model Generating set sold to date in Pakistan along with client address.
- c) A priced list of routine maintenance items shall also be provided with the offer.
- A list indicating two year repair /maintenance spares, are also required with their prices.

The bidders are required to submit with their bid, manufacturer's original technical literature and catalogue/drawing of the quoted models. Generator Currentiation detail, including static and dynamic loadings are also required to be provided with the bid.

- f) The Censet would be tested in manufacturer's factory (for FAT) in the country of origin at bidder's expenses for performance on design parameters aronimum 05 days including travel and stay) by SSGCL representatives in an acceptable test facility. The manufacturer shall ensure that fac on inspection/test to be conducted in the presence of SSGCL Engineers prior to shipment. The pre-shipment inspection would be repeated again, if in the first instance it is not acceptable, all the cost / expenses in this regare will be borne by the bidder again. All local documentation regarding testing overseas would be the responsibility of the bidder. No charges / fees / feests / expenses for this (e.g. Visa arrangement, air fare, boarding, lodging) local travelling & etc) would be the responsibility of the bidder.
 - g) The equipments will be accepted if the est procedures and results are in conformance with required specification, furthermore, the contractor will arrange the training of (04) Nos. SSGCL enorheers at manufactures premises in the country of origin for operation, maintenance and trouble shooting (for minimum 05 working days) at bidden's expenses including Visa documentation, Visa fee return Air ticket, boxeding, lodging and local transportation etc. No separate cost what so ever would be admissible in this regard.
- . h) Pre shipment inspection cannot be combined with training. Pre shipment inspection would be carried out independently. Training would be conducted separately from pre shipment inspection. Time frames for both cannot be overlapped.

v) Loose Items

- i) Tool kit for routine maintenance & major over hauls.
- ii) Engine operating manual, spare parts catalogue and wiring diagrams also Required to be provided.

vi) Schedule of Requirement

Į,

13

| | : <u>SR#</u> | Description | | <u>Quantity</u> |
|-------|--------------|---|---|-----------------|
| | 1- | Gas Engine Driven Generating Set 310- 340 KW with Radiator, Control Panel, Exhaust silencer, Gas Train and other related accessories as per Specification and tender General requirement para (f, g &h) attached. | : | 1 No |
| | 1.1- | Installation, testing & commissioning of above mentioned (310-340KW) Generator set work includes construction of Generator and Remote radiator, civil foundation, supply and installation of i) MS piping between Remote radiator to jacket water / exhaust manifold circuit. ii) Control and power cable between generator to control panel complete in all respect, all mounding hardware, i.e. anchor bolt relat bolt, cable lugs etc shall be provided by contractor. iii) Inclusive for gas fuel supply to Gas Generator, complete in all respect. | : | 1 Job |
| • | 2- | Critical spares any nearly for above Gensets as recommended by OEM years for two years. | : | Rates only |
| Note: | 3- | Consumable item incluib g but not limited Air filter, Oil filter, spark plug etc. for two years for above mentioned Gensets as per recommendation of OEM. | : | Rates only |

- Bidder should quote separately the individual items prices as per schedule of requirement.
 The tender is on complete package basis (All the Generators would be purchased by one vendor) only as well as on "Turn Key basis" only. Partial bics not be considered.

The canopy should be spitable for outdoor installation and effective corrosion resistance and protection for all weather conditions and painted with high quality zinc oxide primer, synthetic enamely with

<u>Terms of Reference/Pre-Shipment Inspection</u> <u>Gas Engine Driven Generator</u>

- 1. To ensure that only brand new goods are being supplied.
- 2. To ensure that the goods strictly confirm to the specifications mentioned in the purchase order. Material found defective or inferior in quality or different in specifications mentioned in the Purchase order is to be rejected.
- 3. To ensure the packing where applicable is sufficiently robust, enough to withstand rough handling during ocean shipment and up country journey and protection against corrosion/ deterioration. It is also to be ensured that shipping specifications indicated on each package burgle.
- 4. To verify hepeoton certificate and test certificate are prepared as per requirement of purchase order and much these to the inspection report to be submitted by the supplier.
- 5. To witness any test at the uppliers works when considered necessary by your inspector.
- 6. To ensure all test/ inspection documents and OEM manuals (Maintenance and Parts) shall be available and be part of the spipping material.

SSGC Company Limited.

HSE & GA-IMS POLICY

SSGC is committed to the Health and Safety of all its. Employees & Stakeholders preservation of Environment, and achieving Operational excellence by improving Quality of products / services along with enforts to promote Safety Culture in the Company. Continual, improvement of HSE and QA performance by reducing potential hazards to prevent injuries and illness is our key priority. It also includes communication, consultation and participation, on HSE, and QA objectives and targets with stakeholders, conserving resources and adhering to applicable Laws and Regulations in all activities / processes related to the transmission and Distribution of natural gas within its provide area.

lazard Identification and Risk Assessment

lii. Risk/Impact Assessment Outputs

- The output of risk/impact assessment may include the following:
 - Identified operations of all hazards/aspects and risks/impacts associated with company
 - Classification of risk/impact.

Ъ.

C.

Ч

e,

f.

- Description or reference to control the risks/impacts.
- ription or reference to monitor the risks/impacts.
- ed competency and or training requirements.
- tting improvement objectives and programs for its achievement
- The risk/impact measures identified shall include controls such as termination/elimination, treatment of the risk/impact and substitution of risk by suitable means and where required tolerated as long as it meets Sente of the sente Use output of risk/impact
 - ents as input for the following: Setting objectives and
 - Training needs identification
 - Terminating the risk/impact (1) actical.
 - Facility engineering control. Emergency Preparedness.
- Administrative controls. g. Insurance. The ultimate requirement is to reduce the risk/impactor menel as low as reasonably practical (ALARP) i.e. where the trouble, difficulty and cost for further reduction becomes unreasonably inconsistent to the

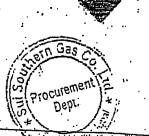

iv. Risk Control

1.1.1

Cost in the second seco Elimination

Engineering

Administrative

PPI-IOT C

- The hazards and risks are controlled through 'operational controls' by considering the following hierarchy Elimination: The best way to control a hazard is to eliminate it. This can be achieved by making changes to the work process so that the task is no longer carried out, or by physically removing the hazard altogether. Elimination is the most effective way to control hazards and should be used
 - Substitution: Substitution is the second most effective method for controlling hazards and risks. It is similar to elimination but involves the substitution of one higher priority risk by another lower priority
 - Engineering: Engineering controls are implemented by making changes to the design of an equipment or process to minimize its hazard. Engineering controls are based on the concept of "Doing e irst time". Departments shall incorporate this concept during planning phase of any and must seek out for best possible solution in terms of OHS&E. project
 - Adminis Administrative controls involve making changes to the way in which people work. and promoting rate work practices via education and training. Administrative controls may involves training employees operating procedures, good housekeeping practices, emergency response in the event of incidents and as fire or employee injury, and personal hygiene practices. Personal Protectiv ment (PPE): Use of PPE will kick-off where no other controls stated
 - above are possible. PPE 🖌 property identified for specific process job

Environmental Aspect Identification & Impact Assessment Environmental Aspects:

that are reusable

and reuse them

Unplug electrical

devices that are not in use

Avoid unnecessary

• Use LED bulbs.

· Plant a tree

driving

. No

An Environmental aspect is any element of SSGS premises operation that negatively affect the Environment: While conducting environmental assessment, following agents are usually considered:

| REDUCE CARBON | | Water Diant |
|--------------------------------|--|--------------------------|
| FOOTPRINT | Solid non-hazardous waste | Water Discharges |
| What we can do: | Consumption of natural resources/ Energy Heat | Solie Hazardous Waste |
| Recycle: what you | Heat | |
| • Reduce: avoid | Dust | Vibering |
| unnecessary | Effect on visual / aesthetics | Use of (720 ne depleting |
| consumption of | Use of radioactive / nucleár material | substances |
| resources Reuse: Buy items | 1-40 of Indicative / nuclear material | Spillage of criemicals |
| , riddoc, buy heins | For identification | |

For identification of environmental aspects and impact, each process/activity/equipment is assessed for its inputs and outputs. The inputs can be raw materials, utilities, energy stc. The output can be atmospheric emissions, liquid effluents, noise, hazardous/non-hazardous wastes, vibration etc.

The inputs, outputs, environmental aspects, their associated impact and controls are recorded on Environmental Aspect & Impact Assessment Form (SSGC-IMS/CRM-F-02).

HandBook | February 2022

b. Control of Aspects having Significant Environmental Impact:

The significant environmental risks require control measures to eliminate or reduce the impact to a tolerable level either by establishing objective or through application of controls by considering the 4R methodology i.e. Some of the suggested operational controls are listed below:

- a. Design of environmental friendly processes/operations.
- b. Isolation or enclosure of hazardous material storage, process or noisy equipment. c. Mechanical exhaust systems/booths for controlling toxic materials.
- d. Replacement of potentially unsafe equipment or machinery with new equipment/machines that meet environmental standards,
- e. Electrical or mchanical safety interlock, guards, indicators. f. Safety devices (Pelieve valves, NRVs, indicators etc.), measuring or guges, computerized feedback monitoring and control systems.
- g. Environmental friendly isposal or treatment systems etc.
- h. Fire prevention/suppression
- L. Containment walls. J. Scrubbers,
- k. Dust Collectors.
- L Other controls: Training, SOP

Section 3 Permit to Work

olio anapaging sanata sa sa sa

I. Permit to Work (PTW)

A Permit to Work (SSGC-IMS/CRM-F-03) is needed for any routine/non routine activity (Conducted within permanent locations of SSGC) where the work could expose persons to specific hazards. PTW should be acquired and maintained in the zones where job/activity is carried out. Normally following activities require

a. Task based Hot Work operation such as welding, brazing, cutting, grinding.

b. Confined space working. (tank cleaning etc.)
c. Maintenance Vork on High Voltage electrical equipment.

d. Any janitonal envice involving Safety Risks such as work at height.

e. Any Maintenance activity by any department/contractor which compromises critical safety system f. Work involving interaction with asbestos,

g. Work in areas where threas a risk of exposure to hazardous chemicals or microorganisms.

Any job/task/activity that represent additional precautions.
 Any specific activity performer during development, modification and up gradation of SSGC's Vital Installations including SMS/Vare assembly/TBS/PRS etc.

II. Exclusion

. Following activities are not under the so of PTW management, however the risk assessment, JSA and or process SORs are implemented to contra ssociated risks for the following;

a. Providing Gas connections to new customer

b. Emergency Response to Consumer calls (1, 39)

c. Planned enhancement of Distribution network

d. Work on live pipelines like hot tapping, installing S e. Any major/minor rehabilitation/reinforcement work

fee c. Pool If it's UNSAFE! ✓ Report it ✓ Remove it ✓ Replace it

HSE&QA HSE&QA HSE&QA representatives are not present. Zonal HSE team leader will officiate for HSE&QA responsibilities. HSE&QA responsibilities. HSE&QA responsibilities.

System

Integrated Management System

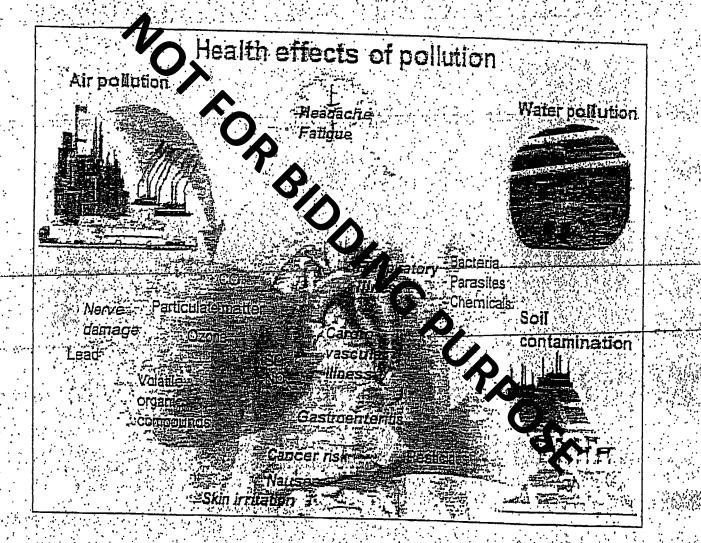

V. Permit Display

Copy of the permit to work should be clearly displayed at the work site or in a location close to where the work activity is being undertaken. Executing department/contractors are also required to ensure that a copy of the permit to work is kept and made available upon request by Area Authority/ HSE&QA.

VI. PTW Closure

Once the task/activity is completed the PTW form is returned back to HSE&QA/Zonal HSE team leader for closing and updating the records. A new PTW is required if the task/activity is not completed within stipulated time frame mentioned on PTW.

Section 5 Management of Change

I. Management of Change (MOC)

BALLY CONTRACTOR DESCRIPTION

The purpose of this document is to provide all SSGC employees with instructions on Management of Change (MOC) process. Any changes that may affect quality, operations, safety, or the environment will be adequately assessed and must be approved by management or a designated representative of manage-

any new project, major modification in existing design /facility/ installation will be carried Risk Assessmer out using MOC

II. Scope

This procedure is intended to meess those changes which may have a direct impact on SSGC's Integrated Management System, or the subsequent delivery of services.

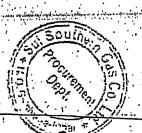

To make sure that changes are a

- and documented in a consistent manner so that a. Unnecessary or counterproductive changes are prevented.
- b. Changes do not adversely affect safety. environment, quality, operations, or the level of service to the client.
- c. No changes are made by individuals without
- legge and/or agreement of all relevant paries. nov d. A record of the assessment rationale and char essment process is produced.
- e. To make sure proper change out of employees of the perations is addressed.

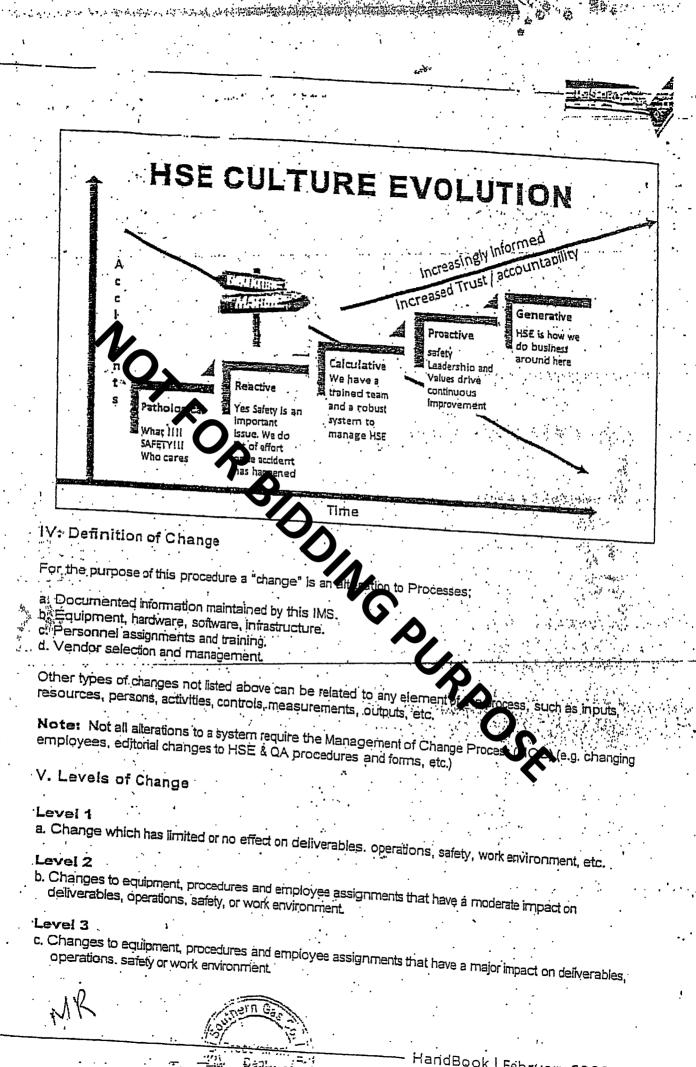

ll. Responsibility

- a. MOC Owner: MOC owner is responsible to fill out the design ted section of the MOC form (SSGC-IMS/CRM-F-05) which briefly describe the details/sco \mathbf{O} e project
- b. Area Authority: Area authonity is responsible to identify the possible ts of the change that is taking rimp ic
 - place. Generally geographical head/zonal HSE team leader is consi area authority. c. HSE&QA Department: HSE&QA Department is responsible to authorize the Second
 - risk and their controls. after assessing the

Integrated Managem

landBook | February 2022

VI. Change Procedure

Step 1 - Initiation of Change

Any employee or contractor that becomes aware of a need for change can initiate the MOC process. The originator will notify their immediate Supervisor/Manager, detailing the proposed change on the MOC form (SSGC-IMS/CRM-F-05). With concurrence by their Supervisor / Manager, the MOC form shall then be

an and a state of the sector of the

Step 2 - Review by in-charge HSE&QA

In-charge HS52 pA will review the MOC request for potential operational impact, cost/benefit analysis, and associated risk off input from the appropriate process owners (Moderate Impact) and/or SSGC top management (Major Impact), as appropriate to the change under consideration. Changes that have negligible impact may be processed by the Management Representative directly.

If the request is accepted, in the equest to the appropriate process owner for implementation.

Step 3 - Implementation of Actions

The process owner will be responsible for the planenting and coordinating the actions required for the proposed change. If it is determined that further assessments required during the course of implementing the change, these assessments will be documented and subcase or review prior to completing the change process. Only after fall assessments have been reviewed shall the floc process be continued and monitored through

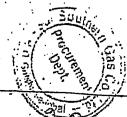

VII. Closing out the MOC

The In-charge HSE&QA will review the satisfactory implementation of a proposed change, and effectiveness of any corresponding control measures.

VIII. Record Keeping

The In-charge HSE&QA will retain a log showing each MOC (Control Number of sociand file the Initial MOC request (SSGC-IMS/CRM-F-05) with all information supporting the actions taken process. These records shall be maintained for a minimum of 3 years.

7. TYPICAL SSGC OPERATIONAL HAZARDS AND THEIR POSSIBLE CONTROLS

Some of the common Hazards related to SSGC operations are tabulated below and may be used while doing Risk assessment. There might be other hazards related to a particular activity/operation or process. These hazards should be identified accordingly along with possible controls. ÷., ۰.

7.1. PHYSICAL • •

| Hazards | Control Measures |
|---|---|
| Adverse weather | Shelter, personal protective equipment (PPE; cold / wind / rain- |
| Poor / Bad housekeeping | Improved safety attitude, good management, safety inspection, good work layout. |
| Contact with hot / cold surfaces | Insulation, guarding, PPE (gloves, face shields, insulated binning). |
| Drowning | Life granding. lifes aving equipment, presence of first Aider. |
| Excavation work | Physical barriers; fencing, shoring, safe system of work, signs, caution tabe |
| Fall from height | Edge protections new lines / hamesses safe and a state and |
| | access, (e.g. scaff ic not, safe system of work (e.g. permit to work). |
| Fall of material from height | Alternative storage, physical nearest securing |
| Lighting | Good work area design and lighting er doment measuring of Illumination (LUX level), appropriate lighting |
| Awkward lifting while laying pipes in trenches | Define weight limits, use mechanical means or it ing and laying of pipes. |
| Noise | Reduction at source, insulation, PPE |
| Slips / Trips / Falls on same level | Good maintenance of work areas, good housekeeping, good |
| Stacking | Good work area layout, height limits, weight limits, strong packing, mechanical assistance. |
| Vibration | Elimination or reduction at source, damping, insulation, DPC |

damping, insulation, PPE.

PURPOSE

The purpose of this procedure is to define a frame work for identification of emergency situations which company operations and for developing emiergency preparegness and response plans to midgate and m risks ansing, from such situations of tevents. The Procedure defines requirements for business continuity planning post emergency situations to

bring the business on-line. Purpose of the procedure is to

- a. Formulate plan, responsibilities and actions to be taken to handle any emergency situation
 - Identify potential emergency situations and response plans to minimize or avoid actual & potential hazards of any emergency situation. Define me
 - em and frequency to test plan so as to ensure preparednes fectiveness of emergency response system.

يتوجزه بالأعوي والقعا اوبو البهنا

SCOPE

b.

C.

a

d.

h.

This procedure is applicable to all locations of SSGC, its employees and any visitor physically present at the location of erriergency site. Due to developed their own ER Plans other anations in nature of operations, various departments/sections have ger their strategic, operational and physical requirements. The same includes HSE emergencies arising fro npany's day to day operations in terms natural calamities, fire, major incidents with loss in our operations, mapremental damage, external terror or bomb threats, public unrest, war and etc.

DEFINITIONS life of persons, protecting buildings, machines, vital is tions and other assets. Rescue: It refers to responsive operations that usual voive the saving of life or prevention of injury during an incident or dangerous situation.

- Emergency Response Organization (ERO); It is a gro Headquarters etc.), who prepare for and respond to any emerge Cincident, such as a natural disaster or (A, γ)
- Emergency Response Centre (ERC): It is a room suitably equipped o andle any potential emergency situations. All emergericles are to be reported here.
- First Aid: It is the provision of initial care for an illness or injury. It is usually soorned by non-expert, but trained personnel to a sick or injured person until definitive medical treatment on De accessed. Assembly Areas: If an evacuation to the outside is appropriate, the normatic assembly ar
- personnel shall be far enough away from the building, structure or workplace to essembly areas for practicable, everyone is protected from falling glass and other objects. re that, where
- Emergency Evacuation it is the immediate and rapid movement of people away from the threat or from

RESPONSIBILITIES

Responsibilities for the particular department/personnel are identified in the response plans prepared by various departments and sections. General responsibilities for Emergency response organization are as under. Rush to the area of incident without any delay. Ъ.

- Immediately assess the situation and initiate the remedial actions.
- Call the fire brigade & other emergency services like ambulances if required.
- Ask/inform all personnel present within premises, using megaphone or any other means, for complete evacuation if situation goes out of control.
- Inform all to go back to their work places using megaphone or any other suitable means when the situation comes under control and the area is free from any hazard.

PROCEDURE. 5.

The HSE&QA In-charge and department heads shall ensure that all emergency situations are identified during risk assessments performed and emergency response plans are implemented within the departments. They shall also ensure that all employees are made aware of their emergency situations and thow to respond during a real emergency. They shall ensure that employees including emergency team members in their respective departments applained to respond to emergencies and mitigate risks arising out of real emergencies. Some of the potential emergency situations that might occur in SSGC along with the response plans are lis ted below. Sequence of actions for any response specified on each section's ER plan may change depending

6. Emergency Considerations

The following areas of needs to be given consideration while identifying potential emergency situation but the Heavy S

- Toxic/flammable chemicals or leakage of gas Heavy rain
- Earth quake
- Bomb threat
- Building & office lockd why nelter in place Active shooter/hostage

Fire & Explosion

In case of fire & explosion each personne

ent within the premises must act as per but not limited to the following instruct

- ĥ.

Give voice alam - FIRE! In case of fire for all impleding employees in the area. Push the nearest located call point button in the origine (if present). c. ...Immediately inform Emergency Response Organization through phone

g,

- Try to control the fire by using fire extinguishers. Use fir extinguisher
- è:
- Remove all explosive, inflammable and poisonous materials the maximum possibility.
 - Shut off main valves of gas and circuit breakers.
 - Stay away from the fire in case it is not controllable.

Report to the designated Assembly Point away from the scene of fire / explo Response Organization through emergency exits and wait for the further ins asked by Emergency

FIRETRIANGLE

6.2. Heavy spillage of toxic/flammable chemicals or leakage of gas

- In case of heavy spillage of toxic/flammable chemicals or heavy leakage of Gas each personnel present within
- Immediately inform Emergency Response Organization through phone or in person. Ь.
- Eliminate all ignition sources (sparks/flames/heat) from the immediate areas. C. . .
- Turn off gas supply from nearest control valve.
- d.
- in case of gas leakage in confined space, proper measures (opening windows, doors etc.) should be taken to ventijate the gas: Ensure the availability of fire extinguishers. Stop leaks if this can be done without having any risk. e. f.
- Do not touch or walk through spilled material.
- ġ. h.
- Prevent entry into waterways, sewers or confined space.
 - If available wear the Personal Protective Equipment recommended. Arrange immediate cleaning of spilled chemical by taking suitable precautions

Integrated Management System

6.3. Heavy Rain / Flood

È.

In case of emergency situation of heavy rain/flood, personnel must remain present within SSGC premises the situation gets worst outside. In case of water entering in department office each person must act as per but not limited to' the following instructions Try to stop water by keeping sand bags.

- Protect building, machines, equipment, tools, parts & material. Shut off Electricity and Gas if necessary.
- مر المراجع الم المراجع المراجع

6.4. Earthquake

- in case of earthquake shocks each personnel present within the premises must act as per but not limited to the
 - Immediately Inform Emergency Response Organization through phone or in person.
 - Immediately Evacuate to Assembly Areas (in open space where you can keep distance at least one half of the height of the building) after the shocks dampen.
 - Shut off all switches and valves of main supplies of gas and electricity, (If possible) Maintain your senses, do not let them disperse.

 - Protect yourself by sitting on side of tables, furniture & under strong structures. Be aware of falling walts, debris. heavy objects and electrical wires. Stay away from loosely hanging objects that may fall after initial shock and tremors.
- Wait for further instructions from Emergency Response Organization ERO should keep in rouch with the metrological department / media for after shocks and future forecasts;

f

- The Romb Disposal Department shall be allowed to operate in the company premises as deemed On getting clearance from Bomb Disposal Department normal routine shall be adopted as advised by

6.5. Bomb Threat

- In case of bomb threat each personnel present within the premises must act as per but not limited to the following Immediately inform Emergency Response Organization through phone or in person.
- Maintain your senses, do not let them disperse. C.
- Report to the designated Assembly Point if asked by Emergency Response Organization through emergency d.
- e.
- Bomb Disposal Department shall be called by Emergency Response Organization. f.

 - The Disposal Department shall be allowed to operate in the company premises as deemed appropriate. inclearance from Bomb Disposal Department normal routine shall be adopted as advised by

6.6. Building of Office Lockdown/shelter-in-place If a situation calls for build

- If a situation calls for building office lockdown, the personnel present within premises should act as per but of limited to following instructions: r colleagues. b.
- Try to stay in pairs.
- Do not leave the room and/or brite under a lockdown situation
- until asked otherwise. d
- Keep quiet and away from doors and ving
- If a gunshot is heard, lay down on the nor fumiture as much as possible, hield under/behind

Take care:

Don't try to be a nero in " emergency situations: do not place your own life or health or that of others in danger & , Bergprepared for the unexpected

6.7. Active Shooter/Hostage Situation

- In case of shooter/hostage situation each personnel preservithin the premises must act as per but not limited to If it is safe to do so, exit the building; if not, lock or barricade you
- b. ... Turn off lights, cover and lock the windows, and lay on the flool c.
- If the shooter(s) leave the area, go to a safer place, if possible. Have an escape route/plan in mind, keep your hands open and visible, and follow any instructions given by law enforce the d.
- Call the Police/Rangers when it is safe to do so. Remain calm, use a quar vote, and provide as much information as possible (your name and location, details about the shooter(s) appearance, weapons, etc.). If you can't speak, leave the line open so the responding authority can listen and a charged and the location. Cooperate and negotiate with the shooter, in order to buy as much time as possible until the rescue team e. reaches.

EMERGENCY NUMBERS 7.

- In consideration of the emergency numbers to be included in the emergency plan, the following should be taken
- Fire brigade/civil defense or equivalent.
- Ambulance service.
- Hospitals/Ciinics.
- Mutual aid agreements/neighbors. Environmental protection agencies.
- Key company personnel.
 - Integrated Management System

8. EVACUATION

All Emergency evacuation routes/doors should be accessible at all times. No hindrances should be placed in the route. All employees should be familiarized with the evacuation routes of their premises. All employee's should immediately evacuate their premises and assemble at the assembly areas (identified by each section). During evacuation following instructions should be followed.

.

- Take only keys, wallets and essential belongings with you.
- Leave the building/premises immediately, do not try to investigate the source of the energency. b. ... Walk, don't run, to the nearest exit.
- c.
- ð. Use stairs; hot elevators
- Assist pegie with special needs. a.
 - your way out, encourage those you encounter to exit as well As vou 🖌

In case of emergency evacu tion should be carried in the following order.

9.1. Personnel

Those personnel who do not hav sound health such as patients of Heart, Asthma and physically/mentally disabled people are to be eva n priority basis. 9.2. Raw Material

Raw material which is explosive, int mable and poisonous must be removed. Similarly, lightweight items that are easy to carry w imnora also be removed. 9.3. Documents

Important records and files must also be ref 9.4. Equipment 14

Cash Lockers, Computer Sets: nsive Tools and Fixtures must also be remo terrial Hard-dr

10. TESTING AND EXERCISES

Testing and exercise of the emergency response plan would be conducted at each location of SSGC to evaluate the effectiveness of the preparedness plan. The recorded observations of the exercise should be recorded on Ernergency Drill Form (SSGC-IMS/ERP-F-01). Each section should nominate the person who is responsible

lically conduct the exercise. frequency and type of drill at each location should be as below: The

| Location | d Offices ional Offices ig Offices e (all locations) Transmission) ibution (Zonal Fire Fighting Drill by Emergency Response Team | |

1. Penalization

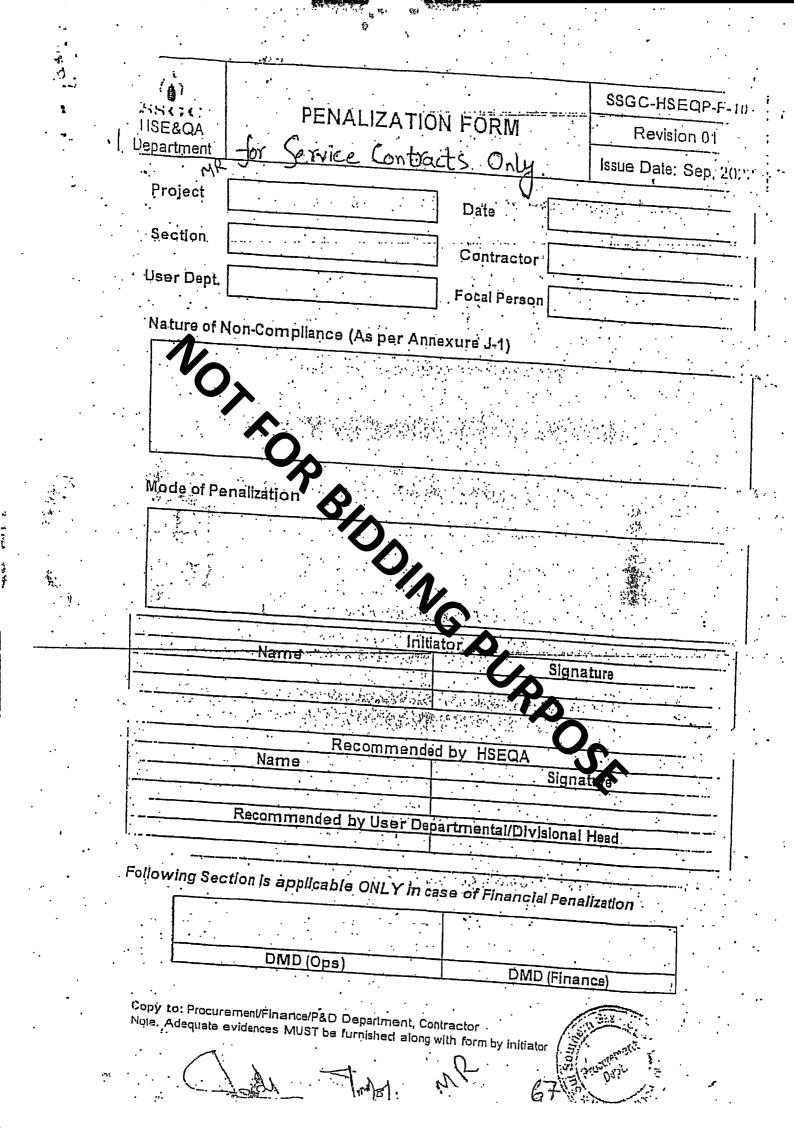

SSGC management reserves the right to penalize the service contractors in case of any nonconformance during course of the project (addressed in respective ToR / Tendor Documents in detail). Penalization will vary according to severity of nonconformance and mode of penalization is provided in respective. Terms of References. SSGC management decides the mode and degree of penalization.

1.1 Penalization mechanism

Following new chart depicts the mechanism/ hierarchy, which will be followed for the penalization of the contractor. Penalization Form and Annexure-J-1 can be found below

Standard Advisory to all Bidders

SUB: Sindh Sales Tax Withholding On Services Payment

(Effective from 1 July 2024)

Dear Sir, Background Please be informed that:

- 1. Uptil February 2021, SiGC deducted 20% of Sindh Sales Tax amount from Invoice value payable to a Vendor for services rendered in Sindh & deposit the same with Sindh Revenue Board, while remaining 80% is deposited by the Vendor themselves.
- 2. From March 2024 June 2024 Strudeducted 80% of Sindh Sales Tax amount from Invoice value payable to a Vendor for sinvices rendered in Sindh & deposit the same with Sindh Revenue Board, while remaining 20% is deposited by the Vendor themselves

Amendment in Law

Sindh Revenue Board (SRB) has amended Withholding Rues thereby requiring SSGC to deduct 20% of sales tax amount from Invoice Value.

Revised Procedure for Sindh Sales Tax Withholding

In order to ensure implementation of above amendment, following process is being implemented 01. July 2024:

- 1) 80% Sales Tax to continue to be withheld on 'Past" Invoices only (where Vender has already deposited 20% Sales Tax in Government treasury provides evidence thereof).
- 2) 20% Sales Tax will be deducted on Current and future invoices (while 80% will be deposited by vendor directly with SRB)

It is needless to mention that only Sindh Withholding Rules have been amended white there is no change in other Rules (income tax withholding Balochistan Sales Tax withholding; etc.)

تمام ٹھیکیداروں کیے لئے معیاری ایٹوائژری خدمات کی ادائیگی پر مندہ میلز ٹیکس (اجولائی ۲۰۲۴ سے نافذ العمل)

يس منتظر

مطلع کیا جائے که:

1۔ فروری 2024 تک، SSGC نے سندھ میں فراہم کی حدمات کے لیے وینڈرز کی انوائس ویلیو سے سندھ سیلز ٹیکس کی رقم کا 20% سیلز ٹیکس کی رقم کا 20% کاٹ لیا ہے اور اسے سندہ ریون ہورڈ کے پاس جمع کرایا ہے، جبکہ وینڈرز بقیہ 80% خود جمع کراتے ہیں۔

2. مارچ 2024 سے جون 2024 تک، 35GG ناسندھ میں فراہم کی جانے والی خدمات کے لیے وینڈرز کی انوائس ویلیو سے سندھ سیلز ٹیکس کی رقم (12%) کاٹ لیا ہے اور اسے سندھ ریونیو بورڈ کے پاس جمع کرایا ہے، جبکہ بقیه 20% وینڈرز خود جمع کراتے ہیں

<u>قانون میں ترمیم</u>

سندھ ریونیو ہورٹ SGC نے ود سولڈنگ رولز میں ترمیم کی ہے جس کے تحت SSGC کو انوائس ویلیو سے سیلز ٹیکس کی رقم 2015 کا کٹوتی کرنا سوگی۔

سنده سیلز ٹیکس ودہولڈنگ کا نظرتانی شدہ طریقه کار

مندرجه بالا ترمیم کے نفاذ کو یقینی بنانے کے لیے، 01 جولائی 2024 سے درج ذیل عمل کو نافذ کیا جا رہا ہے:

1) 80% سیلز ٹیکس صرف 'ماضی' انوائسز پر کٹوتی جاری ر ہے گی (جہاں وینڈر نے پہلے ہی سرکاری خزانے میں 20% سیلز ٹیکس جمع کرایا ہے اس کا ثبوت فراہم کرتا ہے)۔

2) 20% سیلز ٹیکس موجودہ اور مستقبل کے انوائسز پر کاٹا جائے گا (جبکہ 80% وینڈر براہ راست SRB کے ساتھ۔ جمع کرائے گا)

یه واضح رہے که صرف سندھ ودہولڈنگ رولز وائٹ میں ترمیم کی گئی ہے دیگر رولز (انکم ٹیکس ود ہولڈنگ الم اللہ اللہ ال بلوچستان سیلز ٹیکس ود ہولڈنگ وغیرہ) میں کوئی تبدیلی نہیں کی گئی ہے۔
